

Hold on Tight

Written by: Hannah Avalos

Look at these waves, they're all around, They crash they pull, can't stand
your ground I know the feeling, like you can't hang on
A hand to grab an arm to hold, He'll be there you are told, When the wind
blows you will never fall
And Yahshua will hear...

Chorus:

Hold on when life keeps pulling, Hang on when it looks hopeless
I know that you will be alright, Just hold on tight

There's a time you can't see past, Mountains just beyond your grasp
The world's not on your side, You are safe then comes the tide
Like a child reach out your hand, Without Him you'll never stand
But listen here, You are always in his sight

Chorus

Bridge:

He sees you in your darkest hour, You think these troubles seem to tower
Not now, not ever he won't leave you, In the pain He will heal you

Chorus:

Hold on when life keeps pulling, Hang on when it looks hopeless
I know that you will be alright, Just hold on tight
Hold on when life keeps pulling, Hang on when it looks hopeless
I know that you will be alright, Just hold on tight, Just hold on tight...
