

## To You

Intro: C#...2 measures for drum lead-in

**C#**                      **Bbm**  
 I lift my hands to you, the One who made me new  
**B**                                      **G#**  
 For without your loving embrace, where would I be today?  
**C#**                                      **Bbm**  
 You've turned back my enemies, so I can stand at your feet  
**B**                                      **G#**  
 For I am being refined for the coming King!

Chorus:

**F#**              **G#**              **C#**      **(C)**              **Bbm**  
 We will praise you O Yah, and exult your light to the nations  
**F#**                                      **G#**                                      **C#**      **(C)**              **Bbm**  
 For your truth will reign once more, and the meek will know your ways!!  
**F#**              **G#**      **Bbm**  
 In your righteousness remember me

**C#**                                      **Bbm**  
 This world is full of sin, and can break the joy within  
**B**    **G#**  
 But your paths are kindness and truth, to those who worship you

Chorus:

**F#**              **G#**              **C#**                                      **Bbm**  
 We will praise you O Yah, and exult your light to the nations  
**F#**                                      **G#**                                      **C#**      **(C)**              **Bbm**  
 For your truth will reign once more, and the meek will know your ways!!  
**F#**              **G#**      **C#**  
 In your righteousness remember me

Bridge Breakout: F#/G#/C#(C)/Bbm/F#/G#/C#/(C)/Bbm/F#/G#/C#(measure hold before ending)

**F#**                                      **G#**                                      **C#**      **(C)**              **Bbm**

For your truth will reign once more, and the meek will know your ways!!

**F#            G#            C#\_C\_Bbm**

In your righteousness remember me

**F#            G#            C#**

In your righteousness remember me

**Ending: F#/G#/C#(C)/Bbm/F#/G#/Bbm/G#/F#/G#/C#**
