FireSteel.com FireSteel The Choice of Survival Experts

Experts agree: **The most important item in your survival kit is the means to make a fire.**

In a disaster emergency or other survival situation being able to start a fire could very well save your life.

But there is a problem:

- Matches become wet and useless.
- Lighters run out of fuel or break.
- Old fashioned flint and steel can be difficult to use.

Fortunately there is a solution:

FireSteel. The best way to ensure you can start a fire when you need one. FireSteel is compact, lightweight and easy to use. And

FireSteel.com FireSteel

An unretouched photo showing a FireSteel.com firesteel in action.

A shower of white hot 5500° F sparks is produced simply by scraping the FireSteel.com firesteel.

You can purchase genuine FireSteel.com FireSteels in a variety of sizes at the award winning wilderness survival website SurvivalTopics.com

it always works - even when wet!

One simple firesteel can light tens of thousands of fires. Put a FireSteel.com FireSteel in your survival kit and never worry about making a fire again!

"I not only sell FireSteel.com FireSteels, I absolutely depend on them for my own survival!"

There are many inferior products on the market today. Don't be fooled - your life may be on the line. These FireSteels are the real deal!

FireSteel.com FireSteel: The Right Tool for the Job

Forget matches and lighters:

FireSteel.com FireSteel is the fire starter to rely on when the going gets tough and your life is on the line.

Imagine being in a wilderness or disaster survival situation. You need a fire in order to stay warm, cook food, or boil water to make it safe to drink. But your matches are wet, your lighter is broken or out of fuel, and resupply from outside is out of the question. You are on your own for the foreseeable future.

Fortunately you have FireSteel.com Firesteel!

Just one FireSteel.com FireSteel will light thousands of fires. Even if it has become wet or been roughly handled, your FireSteel.com FireSteel still gives off white hot sparks that can start a fire quickly and efficiently.

Never worry about starting fires again - Order your FireSteel.com [FireSteel](#).
